

OPTOGLIDE

AI Creative Intelligence Platform

Create Better Marketing Content. Build Stronger Brands. Powered by AI.

What is OptoGlide?

OptoGlide is an AI Creative Intelligence Platform that helps organizations create, optimize, manage, and scale marketing content across every digital channel. It combines AI creative generation, video production, product demonstrations, AI avatars, brand management, and creative analytics in one governed system.

Platform capabilities

- AI Creative Studio: generate graphics, images, infographics, and marketing assets from a brief.
- AI Video Studio: produce product launches, explainers, testimonials, and social video with AI.
- AI Avatar Studio: multilingual corporate presenters with voice cloning and lip sync.
- Brand Studio: guidelines, templates, fonts, colors, and voice, enforced automatically.
- Creative Intelligence: engagement, watch time, drop-off, and CTR analysis at the asset level.
- Creative Optimiser: data-backed recommendations for titles, hooks, thumbnails, and CTAs.
- Creative Asset Library: AI-tagged, version-controlled, rights-managed asset storage.
- Enterprise Governance: approvals, audit logs, accessibility checks, and RBAC.

Pricing overview

- Startup — \$149/month: AI creative generation, Video Studio, Brand Studio, 100 videos/month, 5 users.
- Growth — \$699/month: unlimited creatives and videos, Creative Intelligence, AI Avatars, 50 users, API access.
- Enterprise — custom pricing: unlimited everything, private deployment, SSO, RBAC, dedicated customer success.

The Zonopact ecosystem

OptoGlide creates engaging creative content. Clintra captures leads, manages customer relationships, and automates revenue. ZonalGuard360 provides governance, compliance, AI governance, audit, and risk management. Together, the three platforms give enterprises a complete creative-to-revenue-to-governance stack.
